

Summer Fun Package

Picture this: it's the last day of school. You hear chatter from your friends about their summer plans. They talk about trips to the pool, rec league sports, a fun weekend spent at the carnival, and restaurant outings with their families. You can't help but catch their enthusiasm. This is going to be a great summer!

However, not everyone looks at summer through these rose-tinted glasses. Some families in Marceline don't possess the means to enjoy all that Marceline has to offer. This in turn, can make it challenging to meet the need to belong, especially on a broader, community level. If you rarely participate in community activities, it makes it difficult to feel connected to the town.

Over the summer, it is easy for kids to lose touch with their friends and social group. This is oftentimes magnified for lower-income families since they may not have the resources to take their kids places to meet up with friends.

The Summer Fun Package could be a way to help. It would provide a family pool pass and swim equipment for the kids, carnival wristbands, and local restaurants gift cards or certificates for families identified by the Marceline Coordinated Welfare Association.

This summer, and each summer forward, this could be a great way to make all the amazing things in Marceline accessible to everyone.
